### Abstract

We all are CONSUMERS and we should have to know our RIGHTS especially when we are purchasing online because today is a Era of Digital Empowerment. The Current Research was conducted to understand the AWARENESS OF CONSUMER RIGHTS in Old Age Person whose intension is to Purchase Goods through online shopping websites. A Survey of 100 Old Age Person of Jabalpur City (M.P.) was conducted through Questionnaire method.

The Result Indicates that the Old Age Person did not know much about their rights for purchasing. They know very well how to purchase online But they don't know how to beware of fraud and what to do after cheating by E- shopping. They also don't have full information about Consumer Protection Act (1986), even they did not know about their five basic consumer rights. They used to do transaction for online buying for Goods and Services, But they did not know if any deceit committed to them, then how to overcome with these cheating in proper manner. It has also observe that the fraud has been committed with Some Old Person but they did not know that where to approach for justice.

Overall, Awareness of Consumer Rights is Approximately Zero in Old age Person in Jabalpur city. So we prepared a Pamphlet about Consumer Rights and on beware of fraud from E- Shopping in Right manner and gave them after analysis of Questionnaire, which will improve their knowledge about Consumer Rights and they will beware of fraud in future.

**Keywords:** Awareness, Consumer Rights, Old Age, E-Shopping, Fraud, Deceit.

### Introduction

We all are consumers, and every consumer consume different types of Goods and Services in their whole life. In the words of Mahatma Gandhi (1890) "A customer is the most important visitor on our premises. He is not dependent on us, we dependent on him. He makes favour to us, not we favour on him." Also said- consumer is the king of the market, But most of the Consumer don't know about their powers, about the consumer Rights and result is exploitation of consumers which is not good for our Economic development. So, there is need of creating awareness in our country, higher consumer awareness lower the exploitation and vice versa. {Consumer awareness may be defined as clearly understanding the need and priority of purchasing, conditions and warranties of purchase agreement and rights and duties of consumer. The consumer must be aware his rights and the available legal measures against exploitation. }

Now days, there is a boom in online purchasing. Internet commerce involves the sales and purchase of products and services over the internet. This new style of shopping made has been called "E-shopping" or Online shopping. Electronic commerce has experienced rapid growth in the last few decades. The internet has changed the why consumers buy goods and services throughout the world and it is based on Business to consumer (B2C) and business to business (B2B).

In the media environment, the lack of face-to-face interaction with customers, businesses are difficult to control the process of service, customers can not see the service staff, also can not contact with the commodity, easy to form a sense of bias and complaints or dissatisfaction, may greatly improve the service failure. Service failure and customer dissatisfaction continues to increase, so that the enterprise has to take service recovery measures to reduce the negative impact on consumers and businesses due to the failure of service. But we have one question in

E: ISSN No. 2349-9443

our Mind that we are really know our Rights of consumer and aware about it ?

In order to create consumer awareness and safeguarding their interest, the government of India has enacted Prevention of Food adulteration act 1954, Standards of weights and measures act 1956, Indian standards institution act 1952, Essential commodities act 1955, Consumer Protection act 1986.

This Paper is based on Awareness of Consumer Rights of Old Age on E- Shopping in Jabalpur city. The reason of this research to know the Knowledge level about consumer rights in our Old generation and we should know their awareness about online shopping, like website, transaction method, products and so on.

Awareness- "Knowledge or perception of a situation or fact." Or "Awareness is the ability to directly know and perceive, to feel, or to be cognizant of events. More broadly, it is the state of being conscious of something."

#### **Consumer Rights**

"Consumer rights is the belief that all consumers have the right to know what they are buying. Companies often market things in a slanted, bias way in order to increase sales by misleading the buyer. This is done with a variety of products including food, cosmetics, and clothing, among other things. By using tricky semantics, companies can make their product seem to mean one thing, while the truth is opposing."

Or "Consumer rights refer to a consumer's right to safety, to be informed, to choose and to provide manufacturers with information concerning their products and services when they make a purchase. Manufacturers who violate consumer rights are subject to lawsuits by their customers"

#### **E-shopping**

"E-shopping or online shopping is a form of electronic commerce which allows consumers to directly buy Goods and Services from a seller over the internet using a web browser. Alternative names are – e-web store, e- shop, e-store, Internet shop, web – shop, web store, online store, and online storefront etc."

#### **Old Age Person**

Old age comprises "the later part of normal life; the period of life after youth and middle age..., usually with reference to deterioration".

#### **Fraud**

"Wrongful or criminal deception intended to result in financial or personal gain." Or "a person or thing intended to deceive others, typically by unjustifiably claiming or being credited with accomplishments or qualities."

#### **Deceit**

"The action or practice of deceiving someone by concealing or misrepresenting the truth."

#### **Scope of the Study**

This study helps firms, organizations and websites improve their marketing strategies. Helpful for problem recognition and awareness of need through online shopping of Old Age Person. For social

# Asian Resonance

marketing getting idea across to consumers rather than selling something.

#### **Objectives of the Study**

#### **Hypothesis of the Study**

1. Old Age People mostly buy goods and services from cash on Delivery method.
2. Most of the Old Age Person don't know about their shopping Rights & Consumer Protection Act.

#### **Limitations of the Study-**

The study has following limitations-

1. The sample was selected from few Old Age Person of Jabalpur city.
2. The sample was limited to 100 respondents.
3. The range limited only college going girls, age group- 60 to 70 years.
4. Randomly selected respondents had been used for filling the questionnaire.

#### **Review of Literature**

Peng (2010) has reported that with new wireless technology constantly being developed, online shopping is increasingly common now days. People can search for and buy products online much more conveniently and efficiently then shopping in retail online stores. In fact, the number of people who choose online shopping is continuously increasing. This study is concerned with factors that affect student "decision making" as to whether to buy products online. this research used mix methodology, which includes quantitative and qualitative methods, and the information had been selected by survey and interview. A total of 92 students responded to the survey & 9 students were interviewed. The information gathered in the research is analysed in comparison with relevant literature. These factors (price, convenience, efficiency, safety, product range and services.) provide a structure to this research,

Sen (2014) has reported that the internet has become a new platform for electronic transaction and consumers in India are increasingly using the internet for online shopping purposes. Online marketing has thus emerged to be the key to success for many companies and the online presence of organizations has become inevitable in nature. This paper identifies the key factors that influence the online purchase of products in Kolkata. In this study take sample of 150 respondents was selected in Kolkata and a self-administered questionnaire was used to collect primary data. The data was recorded by using a

E: ISSN No. 2349-9443

number of open ended questions, close ended questions, from the Likert Scale and interpreting the data. The findings of the study showed that the cost factor, convenience factor, product factor and seller related factor are the four important factors influencing the online purchase of products in Kolkata.

**Plan, Methodology/ Research Design- Selection of Method of Inquiry**

The universe being too large and time & other resources being limited, Convenience Sampling method were selected for the present study.

**Selection of Samples**

The sample selected on purposive random basis.

Selection of method for collection of Data- Questionnaire method used for collection of data. A survey was done to get an idea of the various problems. In the trivial survey the same procedure was followed as was to be adopted in actual survey. The number of cases in it was five on the basis of this pilot study necessary amendments are done in the schedule.

**Sources of Information**

**Primary Sources**

Respondents (Old Age Person) from age group 60 to 70 years were selected as the primary sources. It was collected from 100 respondents in different areas of Jabalpur city through questionnaire.
