

Dhyan Chand – the Magician in the world of Hockey

Abstract

Major Dhyan Chand was the most illustrious sportsperson, India has ever produced in the whole world. Due to his extraordinary performance, he earned the title of "the Magician of hockey". He achieved fame all over the world due to his outstanding feats. His contribution to the world of games is immense.

Keywords: Major Dhyan Chand, Wizard of Hockey Contribution, Achievements.

Introduction

Hockey a popular English school game was introduced in India by British Army regiments and the game soon found favor among the native Indians. Spreading internationally, the popularity of the game was especially effervescent in India. It became popular in India when the British Regiments played the game here and introduced it in the British Indian Regiments who quickly picked up the game.

Dhyan Chand who is considered as the wizard of hockey, was born on the 29th of August 1905 at Prayag (Allahabad), Uttar Pradesh to a Bias Rajput family. His father served the Indian Army as a Subedar, and played the game of Hockey. Initially Dhyan Chand was known as Dhyan Singh. He had 2 brothers named Mool Singh and Roop Singh, the latter one too being an accomplished Hockey player. Dhyan could not resume his studies after 6th standard as his family used to move from one place to another, before finally settling down permanently at Jhansi.

In his younger days, Dhyan was not much interested into sports although he liked wrestling a lot. He started playing Hockey with his friends who used to themselves make Hockey sticks from tree branches and balls from ragged clothes. At the age of 14 years he visited a Hockey match with his father, where one team was down by 2 goals. He insisted his father to allow him to play from the losing side, and an Army Officer let him do so, Dhyan scored 4 goals for the losing team. He Impressed the Army Officer by his skills and the Officer offered him to join the army. In the year 1922 at the age of 16, Dhyan was inducted into the Punjab Regiment as a Sepoy. The Hindi word Chand literally means the moon. Since Dhyan Singh used to practice a lot during the night after his duty hours, he used to wait for the moon to come out so that the visibility in the field (during his era there were no flood lights) improved. He was hence called "Chand", by his fellow players, as his practice sessions at night invariably coincided with the coming out of the moon.

In the year 1926 Dhyan Chand was selected for the Indian Hockey team which was going to visit New Zealand. During the tour, the Indian team scored 20 goals in a match played at Dannkerke, and Dhyan Chand alone had scored 10 of them. India played 21 matches on the tour, out of which it won 18, lost 1 and drew 2 matches. The team scored a total number of 192 goals and Dhyan Chand alone had scored over 100 of them. After his return to India, he was promoted to the post of Lance Nayak in the Army.

Aim of the Study

The aim of the study is to present a biographical sketch of the master player and trace his inspirational journey from his early life, evolution as a player and ultimately his rise as an international phenomana.

Methodology

Survey of national and international literature, news paper clippings, internet references.
