PREFACE

Friends,

In present era when India is ready to keep pace with the world and continuously trying to touch the heights in field of science and technology, our scientists and researchers are involving in new experiments and researches for the welfare of humanity, Research paper writing is a very relevant and vast topic which should be discussed and learned by every new researcher. Types of research papers, proper format of writing an effective research paper, way to choosing relevant title, drafting abstract, what are keywords, need and importance of review of literature, using proper research methodology, what is research design sample size, format of referencing patterns, bibliography endnotes & footnotes are some keynotes which must be discussed with the researchers.

As continuously working in field of higher education and journals publication, **Social Research Foundation** is well aware about the unawareness of “Research Paper Writing Skills” of researchers. For increasing their knowledge about research paper writing **Social Research Foundation, Kanpur** has organized many national or international seminars/conferences and published so many edited/reference books on the same theme. In this concern, last year on 8th July 2018, we also organized an International Seminar on title “**Writing Quality Research Paper of International Standard**”.

With the same objective, we are glad to present this edited book entitled **“Writing Quality Research Paper of International Standard”** in the hands of researchers, which is a little effort in field of higher education and we hope that it would be fruitful to improve the research paper drafting skills of researchers/beginners. The included chapters are contributed by the intellectuals/faculty members/researchers of different reputed universities or colleges from all over India.

The book discusses about the difference between Qualitative and Quantitative Research, Importance of Review of Literature, Research Methodologies, An Introduction to Writing Research Paper in Life Science, Design of Qualitative Research in Chemistry, Research in Rural Development, Importance of Research Design in Writing Research Paper, Adopting Objective of the Study and Research Hypothesis, Conducting Qualitative Research: Common Problems and Possible Solutions Observation or Interview as A Tool for Data Collection in Behavioral Research, How to avoid Plagiarism while writing Research Paper, Ethics in Social Research, Data Collection in Qualitative Research etc.

I am grateful to the authors who contributed their papers and shared valuable information to the researchers and society.

I pay my special gratitude to Almighty God, my respected parents Shri Brijendra Mishra and Smt. Indra Mishra, my well wishers Dr. Asha Tripathi and Dr. Saroj Rathor

for their grace and blessings, to my lovely and caring wife Mrs. Deepti Mishra and my two lovely daughters Ms. Yashavi Mishra and Ms. Tejasvi Mishra for her endless support while editing the book.

I also, want to pay regards to my friends, office bearers, Ms. Bhawana Nigam, co-editor of this book and the entire team of Social Research Foundation for their great assistance and support.

Thank you once again.

Dr. Rajeev Kumar Misra
