Preface

Dear Readers,

I am very happy to present this book titled “Research Column” before you. Obviously it is always a graceful moment for any person / organization to produce the enthusiastic result before society by any medium. Likewise “Research Column” is the same fruitful cover.

This book contains 28 chapters in Hindi and English medium from various research areas i.e. law, social science, science, management etc submitted from the different states of India. Every chapter has its own significance and gives an idea to the researchers from their field.

I am really thankful to the authors who have contributed their precious time for writing the chapters.

I pay my special gratitude to Almighty God, my family, my well wishers, my friends, office bearers and the entire team of Social Research Foundation for their great assistance and support.

Thank you once again.
